SUMMARY

Data Analyst skilled in extracting insights from data using tools like SQL, Excel, and Python. Experienced in data cleaning, transformation, and visualization to support data-driven decision making. Proficient in creating dashboards and reports using tools like Power BI and Tableau. Strong understanding of statistical analysis and problem-solving, with a focus on delivering actionable insights. Passionate about working with data and continuously improving through real-world projects and internship experience.

EDUCATION

MIT, Malout – Punjab Technical University <i>B.Tech in Computer Science & Engineering (CSE) — CGPA: 7.0/10</i>	2022 – 2026 <i>Punjab, India</i>
10+2 Shree Guru Sharan High School Belsand <i>Higher Secondary (Science) — Percentage: 74.5%</i>	2020 – 2022 <i>Bihar, India</i>

TECHNICAL SKILLS

Programming & Data Handling: Python (Pandas, Numpy), SQL
Data Analysis & Visualization: Power BI, Excel (Advanced – Pivot Tables, VLOOKUP, XLOOKUP, Charts)
Data Cleaning & Processing: Data Cleaning, Data Wrangling, Handling Missing Values, Data Transformation, ETL Basics
Databases: MySQL, PostgreSQL, MongoDB (Basic)
Tools & Platforms: Jupyter Notebook, Google Sheets, Git, GitHub
Statistics & Concepts: Descriptive Statistics, Probability, Hypothesis Testing, Data Interpretation
Testing & Debugging: Data Validation, Python Script Debugging, Error Handling
Additional Skills: Dashboard Creation, Data Storytelling, Report Generation, Business Insights
Soft Skills: Problem Solving, Analytical Thinking, Teamwork, Communication, Time Management, Quick Learner

PROFESSIONAL EXPERIENCE

Azure Skynet Solution Pvt Ltd <i>Data Analyst Intern</i> - Analyzed datasets using Excel, SQL, and Python to extract meaningful insights. - Cleaned and transformed data to ensure accuracy and consistency for reporting. - Created dashboards and reports to support data-driven decision making.	Jun 2024 – July 2024 <i>Remote</i>
Apanatime Tech Solution <i>Data Science Intern</i> - Performed data cleaning, preprocessing, and exploratory data analysis (EDA) to extract insights. - Applied statistical methods and basic machine learning techniques to solve real-world problems. - Collaborated with teams to understand data requirements and deliver actionable insights on time.	Jan 2026 – Jan 2026 <i>Remote</i>

PROJECTS

Library Management system

MySQL, Desktop App, Python

- Developed a desktop application for managing library operations.
- Implemented book issue/return, member management, and fine calculation.
- Created a MySQL database with CRUD functionality.
- Added search and authentication features for efficient record management.

Retail Sales Analysis Dashboard

Excel, SQL, Python, Power BI

- Collected, cleaned, and analyzed retail sales data using Advanced Excel, SQL, and Python.
- Performed exploratory data analysis (EDA) to uncover sales trends, customer purchasing patterns, and product performance.
- Developed optimized SQL queries to extract actionable business insights from large datasets.
- Designed interactive Power BI dashboards with filters and KPI cards to monitor sales, revenue, profit, and regional performance.
- Delivered data-driven insights to support inventory management and business decision-making.

Credit Card Fraud Detection System

Python, Scikit-learn, Matplotlib, Seaborn

- Developed a machine learning model to detect fraudulent credit card transactions.
- Performed data cleaning, preprocessing, and exploratory data analysis (EDA) on transaction data.
- Trained and evaluated classification models using Scikit-learn.
- Evaluated model performance using Accuracy, Precision, Recall, F1-Score, and ROC AUC.
- Visualized fraud patterns and insights using Matplotlib and Seaborn.

AstroHub – Interactive Space Exploration Platform

API, Javascript, Interactive Visuals

- Collected and analyzed space-related datasets using APIs to extract meaningful insights.
- Developed interactive dashboards and visualizations to present data in a clear and insightful manner.
- Utilized analytical techniques to identify patterns and trends, improving data-driven understanding.

ADDITIONAL INFORMATION

Languages: English, Hindi

Activities & Achievements:

- Participated in Smart India Hackathon and HackStrom Hackathon.
- Active participant in multiple collegiate hackathons and programming competitions.
